PRAJWAL GULERIA

+91-8352006547 | prajwalguleria@shooliniuniversity.com | Solan (HP) | LinkedIn | Github

CAREER SUMMARY

Computer Science undergraduate with hands-on experience building and deploying full-stack web applications using the MERN stack (React, Node.js, Express, MongoDB), including secure payment integration and AI-powered features via the Gemini API. Also experienced in applying machine learning techniques, including artificial neural networks and ensemble models, to solve real-world classification problems. Comfortable writing clean code across the stack and shipping projects end-to-end, from design to deployment.

EDUCATION

Bachelor of Technology in Computer Science and Engineering / Shoolini University / Solan *Jul 2023 – Present*
CGPA: 8.0 / 10

SKILLS

Python | Data Structures & Algorithms | HTML | CSS | React | MySQL | Database Management Systems | Operating Systems

ACADEMIC PROJECTS

Expense Tracker with Insights | React, Node.js, Express.js, Tailwind CSS ***2024***

- Built a full-stack expense management application to record, categorize, and manage daily expenses with a responsive user interface.
- Implemented automated spending analysis with total expense calculation, category-wise insights, pie charts, and bar graph visualizations.
- Developed REST APIs for adding, retrieving, and deleting expenses, with structured data storage and dynamic dashboard updates.

Travel Management System| HTML, CSS, JavaScript, and SQL ***2025***

- Developed a web-based travel management application to help users search, plan, and manage trips, including destinations, travel packages, and booking details.
- Designed and integrated a user-friendly interface with a structured database to manage customer information, destinations, packages, and reservations efficiently.
- Built and customised the application using HTML, CSS, JavaScript, and SQL, implementing features for package selection, booking management, and secure data handling.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 50+ problems on LeetCode, with a consistent focus on optimized, clean solutions.
- Applied Data Science with Python — Coursera

INTERESTS AND HOBBIES

- Music - Anime Soundtracks & Relaxing Music
- Playing online games
- Open-Source & Linux

LANGUAGE PROFICIENCY

Fluent: English and Hindi
